HISTORY OF THE COLLEGE

IN response to a very general and growing desire, frequently expressed by both the laity and the ministry, the East Pennsylvania Annual Conference of the Church of the United Brethren in Christ, at the session held at Lebanon, Pennsylvania, March, 1865, passed by a large vote a resolution to establish a high-grade institution of learning, conveniently located within the bounds of the East Pennsylvania or the Pennsylvania Conference. This matter was referred to a committee consisting of the Revs. Daniel S. Early, G. W. Miles Rigor, W. S. H. Keys and Messrs. John B. Stehman and Abraham Sherk, with instructions to confer with a similar committee from the Pennsylvania Conference and to determine upon a location. One year later, in March, 1866, this committee reported to the Annual Conference session held at Columbia, Pennsylvania, and recommended the following:

First, the establishment of a school of high grade under the supervision of the Church; second, the acceptance for this purpose of the grounds and buildings then known as the Annville Academy (a private institution founded and conducted as such since 1834), which had been tendered as a gift to the Conference; third, the leasing of the buildings and grounds to a responsible party competent to take charge of the school for the following year. The following were elected as a Board of Trustees: Revs. D. S. Early, George A. Mark, G. W. Miles Rigor, J. B. Daugherty, Lewis W. Craumer, David Hoffman, and Messrs. John B. Stehman, John H. Kinports, Abraham Sherk, Rudolph Herr, H. H. Kreider and Samuel Walmer.

School opened May 7, 1866, with forty-nine students. By the close of the collegiate year one hundred and fifty-one were enrolled, thus demonstrating at once the need of such an institution in this locality and the wisdom of the founders.

In April, 1867, the Legislature granted a charter with full university privileges under which a College faculty was organized with Rev. Thomas Rees Vickroy, Ph.D., as president, and Prof. E. Benjamin Bierman, A.M., as principal of the Normal Department. The same year the Philokosmian Literary Society was organized by the young men, additional land was purchased and a large brick building erected thereon with chapel, recitation rooms, president's office, and apartments for sixty boarding students. This building was not furnished and fully occupied till the fall of 1868.

During the administration of President Vickroy the laws and regulations for the internal workings of the College were framed and adopted, the curriculum established, and the first regular commencement held on June 16, 1870. In 1872, through the leadership of the Misses Sarah Burns, Rebecca Kinports and Ellen Jane Mark, the Clionian Literary Society was organized. In 1877, for the purpose of stimulating wholesome rivalry among the men, another literary society was organized. Mr. Horace S. Kephart prepared the constitution and by-laws and Prof. Louis H. McFadden suggested the name "Kalozetean," which was adopted.

In the summer of 1883 a large two-story frame building was erected on College Avenue, containing an art room, music rooms, the department of natural science, a museum and the College library.

On January 1, 1888, the first number of "The College Forum" appeared under the editorship of the Faculty.

Among the early friends of the College was Mrs. Mary A. Dodge, who gave to the College a fund of ten thousand dollars, the interest of which is "to be loaned without charge to such pious young people as the Faculty of the College may deem worthy of help." The Silver Anniversary of the College was observed in June, 1892. The money secured on this occasion was used to purchase three acres of land which was added to the campus.

In 1897, the College began an era of enlargement which resulted in an addition to the old Administration Building, making it twice as large as before, the erection of the Engle Music Hall in 1899, the Carnegie Library and North Hall (the women's dormitory) in 1904. The large Athletic Field at the east end of the town was also added to the assets of the College during this time.

The disastrous fire on the night of December 24, 1904, when the Administration Building was entirely destroyed, tested the loyalty of the patrons and friends of the College. At a meeting held January 5, 1905, the friends of the College resolved, amid unusual enthusiasm, to rebuild at once, and with the stimulus of a gift of fifty thousand dollars from Andrew Carnegie (who had previously given \$20,000 for the library building), plans were matured by which to raise one hundred thousand dollars for this purpose. The erection of three new buildings was projected—the Men's Dormitory, the Central Heating Plant and the new Administration Building.

Through the untiring zeal and earnest efforts of President Lawrence Kiester, D.D., a gift was secured from a friend of the College in western Pennsylvania to equip the Tyrone Biological Laboratory. The Bishop J. S. Mills and the H. S. Immel Scholarships were also added to the funds of the College. At the death of the Rev. Daniel

MEN'S DORMITORY

Eberly, D.D., July 9, 1910, whose will bears date of September 17, 1909, the College came into possession of property valued at about \$52,000, the major portion for the endowment of the Josephine Bittinger Eberly Professorship of Latin Language and Literature.

Beginning with 1912, the College entered upon its greatest era of enlargement and prosperity. Since that date the student body has increased with great rapidity, more than trebling its numbers. Continued progress of the College, however, demanded the securing of an adequate endowment. To meet this need the cooperating Conferences conducted an intensive endowment campaign, which closed June 26, 1918, with subscriptions amounting to nearly \$400,000.

The faculty and leading students realizing the need of an additional women's literary society, organized the Delphian Literary Society in October, 1921.

West Hall, a dormitory for young women, was purchased three years ago.

Stimulated by a conditional gift of \$175,000 for endowment from the General Education Board, New York City, which had previously given \$24,000 for faculty salaries, the Board of Trustees of the College authorized the raising of a fund of \$700,000 during the summer of 1924. By hearty coöperation and most heroic efforts the goal was reached July 1, 1924. At the present time the College has property worth \$600,000 and an endowment of \$910,000.

GENERAL INFORMATION

The College is situated in Annville, a progressive and cultured town twenty-one miles east of Harrisburg in the beautiful, healthful and fertile Lebanon Valley.

BUILDINGS AND GROUNDS

There are ten buildings on the campus: the Administration Building, the Carnegie Library, the Engle Conservatory of Music, the Women's Dormitory, the Men's Dormitory, South Hall, West Hall, the Heating Plant, the President's Residence, and a dwelling house recently purchased.

THE ADMINISTRATION BUILDING contains the administration offices which are of fire proof construction, the recitation rooms of the College, the chemical and physical laboratories, and the Tyrone Biological Laboratory, the equipment of which was provided for by a gift from a friend from western Pennsylvania, who also named it.

The Alumni Gymnasium occupies the ground floor. Here are provided over seven thousand square feet of floor space for the use of the department of physical culture and the promotion of athletic activities. The gymnasium has, in addition to the gymnasium floor, separate locker rooms for the teams, an apparatus room, and shower baths.

THE CARNEGIE LIBRARY, erected in 1904, furnishes commodious quarters for the growing library of the College.

Two large reading rooms on the first floor, splendidly lighted and ventilated, and beautifully furnished, are provided with the leading magazines and daily papers. Periodicals devoted to the special work of each department are here, as well as magazines of general literature. On the second floor are six seminar rooms designed to be equipped with the special works of reference for the various departments.

THE ENGLE CONSERVATORY OF MUSIC, erected in 1899, contains the college chapel, a director's office and studio, practice rooms, and a large society hall. The building is well equipped with pianos and two large pipe organs.

THE WOMEN'S DORMITORY, NORTH HALL, was erected in 1905, and is a building of beautiful proportions. In addition to rooms which will accommodate forty-five students, there are a society hall, a dining hall, a well-equipped kitchen, and a laundry.

THE MEN'S DORMITORY, erected in 1905, contains single

and double rooms and sixteen suites of two bed-rooms with a separate study-room. These afford accommodations for more than one hundred students.

SOUTH HALL, the original building of the institution, acquired by gift in 1866 when the College was founded, has been remodeled as a women's dormitory and contains the Women's Infirmary.

WEST HALL at the northwest corner of the campus was purchased during the summer of 1926. It was remodeled, enlarged, and accommodates about thirty girls.

THE HEATING PLANT, erected in 1905, contains a low pressure heating system, and supplies the heat for the buildings on the campus. It is constructed with a view to the installation of a lighting plant.

THE PRESIDENT'S RESIDENCE is situated on the northwest corner of the campus.

THE CAMPUS of twelve acres, occupies a high point in the center of Annville and is within easy access of bus and railroad lines.

THE ATHLETIC FIELD of five and one-half acres is well located and admirably adapted for the purpose.

LABORATORIES

The entire northern half of the Administration Building is occupied by the Department of Science. The Department of Chemistry occupies the first floor; Physics, the second; and Biology, the third.

The laboratories of each department are constructed after the most approved modern methods. The lecture rooms are provided with risers and Columbia tablet chairs.

RELIGIOUS ACTIVITIES

The College has always tried to furnish religious training, and encourages all means of promoting Christian influence. Each morning a regular service is held in the College Chapel, at which the students are required to be present.

A students' prayer-meeting is held once a week, and opportunities for Bible study and mission study are offered by the Christian Associations in addition to those afforded by the regular curriculum.

All resident students of the College are expected to attend public worship in the churches of their choice, every Sunday.

Christian Associations The College has Young Men's and Young Women's Christian Associations, which hold regular weekly devotional services and conduct special courses of Bible and mission study. They are centers of the spiritual interests

of the students and deserve the hearty support of all connected with the college. Under these auspices public lectures, entertainments and socials are held, which contribute to the pleasure of the student body.

COLLEGE ORGANIZATIONS

Literary Societies Excellent opportunities for literary improvement and parliamentary training are afforded by the societies of the College. There are four of these societies—Philokosmian, Kalozetean, Clonian and Delphian. The last two are conducted by the girls of the college. These societies meet every Friday evening in their well-furnished halls. They are valuable agencies in college work, and students are advised to unite with one of them.

Athletic Association The Athletic Association is composed of all the students of the College and the coöperating Alumni. Athletics are controlled by a Council consisting of representatives of the faculty and alumni.

Student Publication A group of students possessing ability in management and composition is selected annually by the Faculty to bring out a periodical, *La Vie Collégienne*, devoted to college and student interests. This encourages students to write for publication, and affords training of a highly specialized character to a number of those interested in editorial work.

LITERARY AND MUSICAL ADVANTAGES

During the college year, the student body has the privilege of hearing lectures and talks delivered by men of note in Church and literary circles.

The department of music presents a number of programs during the year. Concerts and recitals by prominent musicians are given under the patronage of the Department of Music with the aim of creating in the student body an appreciation of the best in art.

ADMINISTRATION

Admission Candidates wishing to enter Lebanon Valley College by certificate must present credits from High Schools, Normal Schools, and Academies as soon as possible. Since it is at present necessary to limit the Freshman Class to one hundred and twenty-five (125) students, applications for admission will be considered by the committee on admissions on the basis of comparative merit. Blanks for this purpose may be had on application.

Candidates desiring to enter by examination must make application for the examination two weeks before the opening of the school year. Upon receipt of this application the time and place of the examination will be arranged.

Registration Registration is the process of class assignment and is completed over the signatures of the adviser and the Registrar. No student will be admitted to any class without the proper registration card which is sent direct to the department of instruction from the Registrar's office.

The registration days for the collegiate year 1931-1932 are as follows: First semester, Sept. 16 for freshmen and Sept. 19 for other students; second semester, Jan. 27, 28, 29, 30.

Pre-registration To expedite the opening of the school year in September, all students of 1930-1931 will be registered during the month of May for the ensuing year's work. A fee of one dollar will be charged when this is not attended to at the time appointed. Changes in registration will be made in September without charge.

Late Registration Students registering later than the days specified will be charged a fee of one dollar. Students desiring to register later than one week after the opening of the semester will be admitted only by special action of the proper committee.

Change of Registration When change of registration is advisable or necessary such changes must be made in the same way as the original registration, namely, over the signatures of the adviser and Registrar. Such changes will not be permitted after the close of the second week of the session.

Advisers The head of the department in which a student has elected to major becomes the adviser for that student. The adviser's approval is necessary before a student may register for or enter upon any course of study, or discontinue any work. He is the medium of communication between the Faculty and the students majoring in his department, and, in a general way, stands to his students in the relation of a friendly counselor.

Classification Classification will be made on the following credit basis: Freshman standing, 15 Carnegie units; Sophomore standing, 30 semester hours; Junior standing, 60 semester hours; Senior standing, 90 semester hours.

Advanced Standing Credits for work done in other institutions, for which advanced standing is desired, must be submitted to the committee on College Credits and a copy filed with the Registrar.

Limit of Hours Every resident student must take at least fifteen hours of work as catalogued. Any student at the close of the semester failing to pass sixty per cent of the work for which he is registered will be required to withdraw from the institution.

The permitted number of extra hours of work, above that prescribed by the curriculum, is limited by the student's previous record, as follows:

- (a) Majority of A's—three hours.
- (b) Lower record than majority of A's—no extra hours.

Class Standing Class standing will be determined at the middle and end of each semester for Faculty consideration. Reports of standing will be made to parents or guardians at the end of each semester, or when the Faculty deems it expedient. The standing is indicated generally by classification in seven groups, as follows:

A (90-100%) signifies that the record of the student is distinguished.

B (80-89%) signifies that the record of the student is very good.

C (70-79%) signifies that the record is good.

D (60-69%) signifies the lowest sustained record.

E (below 60%) imposes a condition on the student.

F (Failed completely) signifies that the student must drop or repeat the subject and cannot be admitted to subjects dependent thereon.

I (Incomplete) signifies that work is incomplete, but otherwise satisfactory.

Graduation Credit A grade of C or better must be obtained in at least half of the total number of semester hours required for graduation.

If the student's record as a whole is poor, he may be required to repeat certain subjects, to repeat the year's work, or to withdraw.

Conditions and Re-examinations Except in the case of the final examinations of seniors, no immediate re-examination will be given to students falling below the passing mark on the regular examinations.

Students obtaining a final average below 60% but above 50% in not more than two subjects will be given a "Condition" in these courses, and such Conditions may be removed by obtaining a mark of 60% or more on a re-examination to be taken at the College during the days appointed for registration for the following year, or at the regular examinations of the following year. The subject matter of such an examination will be the whole work of either

the first or second semester, or both, according to where the student failed to obtain the required 60%.

A fee of \$3.00 will be charged for each examination for the removal of a Condition.

Conditions imposed at the end of the first year must be removed before the student enters the third year, and those imposed at the end of the second or third year must be removed before entering the senior year. Failure to remove a Condition within the above specified time converts the Condition into a Failure.

Absences Should a student be absent once beyond twice the number of times a class meets each week, he will be required to take a special examination, for which a fee of three dollars will be charged. Such examination must be taken within a week of the excess absence; otherwise the student will lose his class standing. Absences immediately preceding or following vacation will be counted double.

Discipline The rules of the College are as few and simple as the proper regulation of a community of young men and women will permit. The government of the dormitories is under the immediate control of the student councils, committees of students authorized by the College authorities.

Chapel All students are required to attend the morning chapel service. Failure to attend will be ground for action by the Faculty upon recommendation of the Committee on Chapel Attendance.

Limitations Students are limited to two of the following college activities: Quittapahilla, Glee Club, Plays, Foot Ball, Basket Ball and Base Ball. This regulation can be set aside only by a special action of the Faculty.

No games between college organizations may be engaged in during study hours except by permission of the Faculty.

Degree and Diploma The Baccalaureate degree will be conferred by the Board of Trustees on recommendation of the Faculty, upon students who shall have completed a minimum of 126 semester hours, and have obtained, in each case, a grade of C or better in not less than one-half of the total number.

Residence Requirement The A.B. and B.S. and B.S. in Economics degrees will, however, be conferred only upon candidates who have spent at least a full year in actual residence. The residence requirement for the degree of B.S. in Education is stated in detail on page 46.

SUMMER, EXTENSION, AND SATURDAY AND EVENING SCHOOLS

In addition to the work offered as outlined in this catalogue, the college offers fully accredited work under three additional schedules as follows: Summer School, Extension School, Saturday and Evening School.

Persons interested in any of these schedules should apply to the Registrar for special bulletin outlining the same.

SCHOLARSHIPS AND TRUST FUNDS

The College offers a limited number of tuition scholarships of seventy dollars a year. It also makes some loans.

Students preparing for the ministry in the Church of the United Brethren in Christ and having quarterly or annual conference license to preach, will be entitled to \$100 reduction in tuition in the college on certain conditions.

PRIZES

President and Mrs. G. D. Gossard Scholarship Prizes

A prize of Ten Dollars is awarded to the member of each of the Senior, Junior, Sophomore and Freshman Classes, who shall have attained the highest scholastic standing throughout the year.

The prizes for 1930 were awarded to Gladys Marjorie Knaub, Senior; Ethel May Hower, Junior; Ann Augusta Esbenshade, Sophomore; Kathryn Anna Leisey, Freshman.

Max F. Lehman Memorial Mathematics Prize

A prize, established by the Class of 1907, in memory of a classmate, is awarded to that member of the freshman class who shall have attained the highest standing in mathematics.

The prize was awarded in 1930 to Carl Russell Myers.

Sophomore Prize in English Literature

A prize, established by the Class of 1928, to be given to the three students in Sophomore English (English 26) who have done the best work, taking into account scholarship, originality, and progress.

This prize did not carry any stipend for the year 1929-1930, but the honor goes to Ann Esbenshade, Ruth Agen, Henrietta Wagner.

The Freshman English Prize

A prize of Five Dollars, given by Miss Mary K. Wallace, for the best Anthology collected for English Composition, English 16.

This prize was awarded in 1930 to Walter Otto Krumbiegel.

Bible Prize

A prize of Ten Dollars to be given to that member of the graduating class who has maintained a high degree of scholarship in Bible, and has also proved to be a religious influence among the students.

This prize was awarded in 1930 to Albert Leroy Sitlinger.

EXPENSES

The rates on the following pages apply to the school year 1931-1932.

MATRICULATION

The Matriculation fee in the College is \$25.00, and must be paid on or before September 1 to assure accommodations. This fee is not subject to refund, nor is there any rebate allowed for any reason. The greater portion of this fee is used for student activities.

Special students who take less than half work in the regular appointed classes, or any students who take work outside of regular recitation periods, are required to pay matriculation according to the number of hours taken.

Matriculation for Music ranges from one dollar to twenty-five dollars. No additional fee is required for music from students who have already matriculated for College departments.

TUITION

For seventeen hours or less in the College the annual tuition is \$220. Seven dollars will be charged for each additional hour of work taken in regular classes when the total number of hours for the year exceed thirty-four.

Ministers' children in either the College or Music department are entitled to a rebate on full tuition of \$50. Scholarships do not cover the tuition for extra work taken.

LABORATORY FEES

To cover the cost of materials used in the Laboratories, the following fees are charged:

	EACH SEMESTER
Biology 18, 28, 38, 48 and 58, each.....	\$8.00
Biology 64, 74, 84, 94, and 104, each.....	4.00
Chemistry 18	8.00
Chemistry 28, and 38, each.....	10.00
Chemistry 48	12.00
Physics 18, 28, and 34, each.....	5.00
Psychology 13, and 23, each.....	1.00
Education 82	1.00

There will be no refund of laboratory fees.

A deposit of \$2 is required of each student in the Biological laboratory as a guarantee for the return of keys and apparatus. The amount, less any deductions for loss or breakage, is refunded when keys and apparatus are returned.

Breakage Deposit for Chemistry Courses: Chemistry 18, \$3; Chemistry 28, \$4; Chemistry 38, \$4; Chemistry 48, \$5. All breakage in the Chemical Laboratory will be charged against the individual student and any balance of the above deposits due the student at the completion of his course will be returned or credited to his account, and any deficit beyond his deposit will be charged to his regular College account.

BOARDING

The domestic department is in charge of a skilled and competent chef. Plain, substantial and palatable food especially adapted to the needs of the student is provided. The kitchen is furnished with the most modern equipment and all food is prepared in the most sanitary manner.

The boarding rate for the college year 1931-1932 is \$200.00. Students who leave college during the term will be required to pay board at the rate of \$6.50 per week during their stay in college. These rates do not include Christmas and Easter vacations.

All students who do not room and board at their homes are required to room and board in the college unless special permission is obtained from the Executive Committee to do otherwise. Students refusing to comply with this regulation forfeit their privileges as students in the College.

ROOM RENT

Room rent varies from \$50.00 to \$98.00 except when double rooms are assigned to only one student, in which case the occupant will pay the regular rent for two. Rooms are reserved for those who forward the matriculation fee prior to August 1; applications received after that date must be accompanied by the fee to assure accommodations.

Occupants of a room are held responsible for all breakage and loss of furniture or any loss whatever for which the students are responsible. A breakage fee of \$10 is required of each student rooming in the Men's Dormitory. All or part of this may be returned at the end of the year. A dormitory service fee of \$6 is charged

men in the Dormitory. A breakage fee of \$5 is required for each student in the Women's Dormitories. After deducting the cost of repairing damaged walls or furniture, the balance will be returned.

Each room in the Men's Dormitory is furnished with a chiffonier and book case, and for each occupant a cot, mattress, one chair and study table. Students must provide their own bedding, rugs, towels, soap and all other furnishings.

Each room in the Women's Dormitories is furnished with a rug, bed, mattress, chair, dresser and study table. All other desired furnishings must be supplied by the student.

All students to whom rooms are assigned are strictly forbidden to sub-let their rooms to day-students or to others for a money or any other consideration.

One 40-watt light is furnished for each occupant of a room. Only 40-watt lights are allowed.

The College reserves the right to close all the dormitories during the Christmas and Easter vacations.

ESTIMATED EXPENSES

The minimum expense for men is \$495 and for women \$505. The maximum expense for a full course in Lebanon Valley College for one year, exclusive of laboratory fees, books and personal expenses, is \$545 for men and \$540 for women.

GRADUATION FEE

Sixty days prior to Commencement, candidates for degrees are required to pay the following fees:

Students graduating in the College \$15.00; in Music, \$13.00; those receiving certificates in Music \$8.00.

REGULATIONS

Matriculation fee must be paid by August 1 to secure room reservation, and in any case by September 1.

Laboratory fees must be paid at the beginning of each Semester.

Bills for regular College expenses, including Tuition, Boarding, and Room Rent, are issued at the beginning of each semester, covering the expenses for the full semester. These bills are due on the day they are issued and must be paid within ten days.

When a student leaves school or the boarding hall for any other reason than sickness, he shall pay board at the rate of \$6.50 per week,

without any rebate or refund, except when ordered otherwise by the Finance Committee of the College.

Satisfactory settlement for all bills and fees is required before an honorable dismissal can be granted and before grades are recorded or given to the student.

Students who are candidates for Diplomas or Certificates must make full settlement entirely satisfactory to the Finance Committee before diplomas or certificates will be sealed and delivered.

A room for men day students is provided in the Administration building. A deposit of \$5.00 is required to cover janitor service and breakage. The unused portion of this fee will be returned.

A rest and study room for women day students is provided in South Hall. A fee of \$3 is charged to cover janitor services and breakage. A portion of this fee may be returned at the end of the year.

ABSENCE AND SICKNESS

When students retain their class standing during absence from school because of sickness or for any other reason, no rebate or refund will be allowed on tuition, or room rent. In case of suspension for any reason there will be no rebate.

In case of sickness which occasions loss of class standing, a reasonable rebate or refund will be allowed on tuition.

When a student is absent from school more than two weeks in succession because of sickness, and retains his room during the time of absence, then a rebate of \$4.00 per week will be allowed for all absence exceeding the two weeks. Reductions cannot be allowed for athletic, glee club, or banquet trips.

AID TO STUDENTS

Help is extended annually to a limited number of students, but only to those pursuing full courses in the College. This help is given in the form of Merit Scholarships, Ministerial Scholarships, Waiterships, Janitorships, Tutorships, or Library work. All of this help is extended or given only upon the condition that the recipient complies with all the rules and regulations of the College.

A student forfeits the privilege of a scholarship or other help from the school when his average grade falls below passing standards or when in any way he refuses to coöperate with the College, or when he disregards the regulations of the institution.

Students rooming in Dormitories and boarding at the College Dining Hall will be given preference when work of various kinds is assigned.

Requirements for Admission to the Freshman Class in Lebanon Valley College

Fifteen units are required for admission, which must include those specified in the following table

Groups	Studies	Units Accepted	A. B. Degree 3 units	B. S. Degree 3 units	B. S. in Educ. 3 units	B. S. in Economics 3 Units

of which only 3 may be chosen from Commercial Subjects, such as, Bookkeeping, Stenography, Typewriting, Commercial Law, etc.

REQUIREMENTS FOR ADMISSION

Students may be admitted to Freshman standing in Lebanon Valley College on the following plans:

I. Admission by Certificate. The following classes of candidates are admitted to Freshman standing on presentation of certificates signed by the proper authorities showing the kind and amount of work done:

1. Graduates from any four-year high school course approved by the Pennsylvania State Department of Education.

2. Graduates from any four-year course of a school accredited by the Association of Colleges and Preparatory Schools of the Middle States and Maryland, or by the State University of the state in which the school is located.

Such certificates must represent a total of at least 15 units of work and must meet the requirements outlined in the Table of Requirements for Admission. They must also indicate that the respective candidates are qualified to pursue collegiate education successfully. Candidates whose preparatory records are unsatisfactory to the committee on admissions will be refused admission.

A unit represents the work of a school year of no less than thirty-six weeks, with five periods of at least forty-five minutes each per week, or four periods of one hour each per week. A unit, therefore, is the equivalent of one hundred and eighty recitation periods of forty-five minutes each, or one hundred and forty-four periods of one hour each.

Blank entrance credit certificates will be furnished upon application to the Registrar.

II. Admission by Examination. Candidates not presenting approved certificates may be admitted upon examination. Examinations will be given upon the work covered by the list of secondary subjects approved by the Association of Colleges and Preparatory Schools of the Middle States and Maryland. Candidates for admission by examination must meet the same specific requirements as those for admission by certificate.

CARNEGIE LIBRARY

THE CURRICULUM

ARRANGEMENT OF COURSES OF STUDY

Lebanon Valley College offers four courses of study leading to the Baccalaureate degree:

- (1) A course leading to the degree of Bachelor of Arts (A.B.)
- (2) A course leading to the degree of Bachelor of Science (B.S.)
- (3) A course leading to the degree of Bachelor of Science in Education (B.S. in Ed.)
- (4) A course leading to the degree of Bachelor of Science in Economics (B.S. in Econ.)

The minimum number of credits required of candidates for these degrees is 126 semester hours.

As part of this total requirement, every candidate must present at least 24 semester hours in one department (to be known as his Major), and at least 16 semester hours in another department (to be known as his Minor). Both Major and Minor must be selected before registration for the sophomore year, the Minor to be suitably related to the Major, and chosen with the advice and approval of the Head of the Major Department.

The A.B. degree will be awarded to those fulfilling the requirements for a Major in the following departments: Bible and New Testament Greek, English, French, German, Greek, History, Latin, Mathematics (Arts option), Political and Social Science, Philosophy and Religion.

The B.S. degree will be awarded to those fulfilling the requirements for a Major in the following departments: Biology, Chemistry, Mathematics (Science option), Physics.

The B.S. in Ed. degree will be awarded to those fulfilling the requirements for a Major in Education, but in this case two Minors of not less than 18 semester hours each must be presented.

The B.S. in Economics degree will be awarded to those fulfilling the requirements of the course in Business Administration as outlined on page 62.

GENERAL REQUIREMENTS

Certain courses, embodying the fundamentals of a liberal education, are required of all students. These courses, which vary slightly according to the degree sought, are as follows:

Second Year

N. B.—The figures in the above exhibits are for hours per week throughout the year, and must therefore be doubled to find the number of semester hours credit in each case.

DESCRIPTION OF COURSES

ASTRONOMY

PROFESSOR GRIMM

13. General Astronomy—Three hours. First Semester.

A course in descriptive astronomy. Reports on assigned readings. Important constellations and star groups are studied.

A fine four-and-a-half-inch achromatic telescope adds to the interest of the subject.

Open to Juniors and Seniors.

BIBLE AND NEW TESTAMENT GREEK

PROFESSORS RICHIE AND BUTTERWICK

Major: Bible 14, 26, 34 or 54; New Testament Greek 46, 56.

Minor: Bible 14, 26; New Testament Greek 46 or 56.

COURSES IN BIBLE

14. General Introduction to the English Bible. Two hours. Throughout the year.

The aim of the course is to make a survey and acquire an appreciative understanding of the history and literature of the whole Bible.

26. The New Testament. Three hours. Throughout the year.

A study of the Gospels, with special emphasis upon the life and teachings of Christ, is made during the first semester. The second semester deals with the life and epistles of Paul.

34. The Prophets. Two hours. Throughout the year.

A study of the lives of the major and minor prophets, and an analysis of their contributions to the Word of God. Offered 1931-1932.

44. Rise and Development of the Hebrew Nation. Two hours. First Semester.

Rise and Development of the Christian Church. Two hours. Second Semester.

54. The Religious History of the Jews During the Time of the Kingdoms. Two hours. Throughout the year. PROF. BUTTERWICK.

The purpose of this course is to furnish the student with a knowledge of the religious growth and practices during the time of the Kingdoms under the leadership of the prophets.

COURSES IN NEW TESTAMENT GREEK

PROFESSOR RICHIE

46. Readings from the Book of Acts and the General Epistles.

56. The Gospel according to John and Selected Readings.

Three hours. Throughout the year. Prerequisite: Greek 16 and 26. These courses are given in alternate years. Course 56 will be offered 1931-1932.

BIOLOGY

PROFESSOR DERICKSON, ASSOCIATE PROFESSOR LIGHT, AND ASSISTANTS

The work outlined in the following courses in Biology is intended to acquaint the student with those fundamental facts necessary for the proper interpretation of the phenomena manifested by living things with which they are surrounded and to lay a broad foundation for specialization in universities in professional courses in Biology.

Those completing the courses will be well prepared for the work in medical schools, for graduate work in colleges and universities, for teaching the biological sciences in high schools and for assistantships in university and experiment station laboratories in the departments of agriculture and the United States Biological Survey.

Major: Course 18 and any additional courses of higher number, including laboratory work, in the department amounting to sixteen semester hours.

Minor: Course 18 and eight semester hours from courses of higher number in the department.

18. **General Biology.** Four hours. Throughout the year. Three hours class work and three hours laboratory work each week. The aim of the course is to acquaint the student with the essential structures and processes of living things.

Plants and animals are studied in the laboratory to observe the structure, properties and activities of living protoplasm as illustrated by organisms composed of a single cell, simple tissues and of systems of organs. The principles of development, heredity, homology, classification, adaptation and evolution are also considered.

Required of Freshmen majoring in Biology.

Required of Sophomores majoring in Chemistry, Mathematics and Physics. Elective for others.

28. Botany. Four hours. Throughout the year. Offered 1932-1933.

Three class periods and four hours laboratory work each week. The object of the course is to give the student a general knowledge of the plant kingdom. The form, structure and functioning of one or more types of each of the divisions of algae, fungus, liverworts, mosses, ferns and seed plants are studied.

Special attention is given to the phylogeny and ontogeny of the several groups and constant comparisons are made of those structures indicating relationships. The principles of classification are learned by the identification of about one hundred and fifty species of plants represented in the local spring flora. These studies are conducted in the field so that the plants are seen as dynamic forces adapted to their environment.

38. Zoology. Four hours. Throughout the year. Offered 1931-32.

Three lectures or recitations and two laboratory periods of two hours each, per week.

The course is intended to acquaint the student with the structure, life history and behavior of representatives of each phylum of animals. In the study of types, structure, function and adaptation are given equal emphasis. The principles of phylogeny and ontogeny are considered.

The laboratory and class work is supplemented by field studies including observations of habits, ecological conditions and the use of keys for identification and classification.

Text:—Hegner's *College Zoology*.

48. Comparative Vertebrate Anatomy. Four hours. Throughout the year. Offered 1932-33. Six hours laboratory work and two hours of conference and demonstration each week.

The course consists of the dissection and study of a suctorial fish, a cartilaginous fish, a bony fish, an amphibian, a reptile, a bird and a mammal.

Carefully labeled drawings are required of each student as a record of each dissection.

Recommended to those preparing for medicine or majoring in Biology.

58. Vertebrate Embryology and Histology. Four hours. Throughout the year. Offered 1931-32. Two lectures and six hours laboratory work each week.

The course consists of the study of the principles of development of vertebrates. The origin of the sex cells, fertilization, the environ-

ment of the embryo, the histogenesis of tissues and organs, and the significance of the transition stages in development receive attention. The laboratory work of the first half of the year is based on the chick and pig, the remainder of the year to the normal histology of the adult mammalian tissues.

Each student receives individual instruction in the technic necessary for the preparation of the material used in the course.

Elective for those preparing for medicine or majoring in Biology.

Texts:—Patten's *The Chick and Pig*; Bremer's *Textbook of Histology*.

64. Genetics. Two hours. Throughout the year.

This course deals with the mechanism and laws of heredity and variation and their practical applications to mankind.

74. Biological Problems. Two hours throughout the year or four hours either semester. An honors course. Laboratory work with conferences.

This course is open to a limited number of students majoring in Biology who have made a distinguished record in their previous courses. It consists in working out problems assigned to them involving a practical application of various methods of technic, originality of method and interpretation and the development of the spirit of research. A weekly conference and report on the progress of the work will be required and a detailed report including complete records of the work done must be presented before Senior examinations.

84. Bacteriology. Four hours. First semester. Offered 1931-32. Two class periods and four hours laboratory work each week.

This course is designed to acquaint the student with various forms of bacteria and their role in nature. It includes laboratory technique in cultivation, sterilization, isolation of pure cultures, and staining of bacteria.

94. Physiology. Four hours. Second semester. Offered 1931-32. Two class periods and four hours laboratory work each week.

A course of instruction in general physiology dealing with the tissues of the body and especially their function in respiration, digestion, circulation, excretion and reproduction.

108. Historical Geology. Four hours. Throughout the year. Offered 1931-32. Three class periods and two hours laboratory work each week.

A general course in historical and structural geology giving attention to the processes and dynamic agencies by which the crust of the earth has been formed and evolved into its present condition with special attention to the fossil remains of plants and animals therein contained.

BUSINESS ADMINISTRATION

PROFESSORS STOKES AND GINGRICH

See page 62 for general outline of the complete course in Business Administration.

14. Commerce, History of. Two hours. Throughout the year.

The course attempts, in a general outline, to estimate the significance of geographical conditions as factors in the development of civilization and to sketch the history and development of commerce.

Economics 16. See page 59.**36. Principles of Accounting.** Three hours. Throughout the year.

A course in accounting principles and their application in business to sole traders, partnerships and corporations; books of original entry; operating accounts and balance sheets; the preparation of financial statements; columnar books; controlling accounts; elements of corporation accounting; branch house accounting; business papers.

46. Advanced Accounting. Three hours. Throughout the year.

The principle of balance sheet valuation; profits, their determination and distribution; instalment sales; insolvency and bankruptcy; accounting for domestic and foreign branches and for holding companies; consolidated balance sheets; a more intensive analysis and interpretation of financial statements.

516. Cost Accounting and Auditing. Three hours. Throughout the year.

Cost Accounting: Principles of Cost accounting; system of control over elements of cost; wage systems and time records; overhead and its distribution; job orders and process costs; relation of cost records to general accounts.

Auditing: Principles of and procedure in audits; internal and external; scope and kinds of audits; office organization; internal check; analysis and reconstruction of operating and financial statements; reports to executives; special features in different business and financial organizations; legal decisions.

53. Transportation. Railroad. Three hours per week. One semester.

Railroad services; principles of rate making as established by the railways, the regulative tribunals and the courts; railway policy in the United States and other countries; railway rate structures.

Water and Motor Transportation. Three hours per week. One semester.

Ocean and inland water transportation. Ocean carriers; routes and terminals; freight, passenger, mail and express services; rates; marine insurance; inland waterways and their relation to railroads; government aid and regulation of water transportation; principles of motor transportation; competition or cooperation with railroads; its relation to terminal and market centers; rate making; its relation to highway and street construction and maintenance; public relation.

Money and Banking. See Economics 34, page 59.

Business Law. See Economics 26, page 59.

63. Insurance. Three hours. One semester.

Insurance as a factor in private and business life; a study of the principles and practices used in the more important forms of insurance; the economic services and business uses of insurance; types of insurance organizations; types of life insurance policies; liability and compensation insurance; fire insurance; marine insurance; automobile insurance; title insurance; credit insurance; aviation insurance; insurable interest; legal problems arising in connection with insurance; reinsurance and investments of insurance companies.

73. Marketing. Three hours. One semester.

The course deals with the methods and policies of the marketing of agricultural products and the merchandising of manufactured commodities; meaning and importance of marketing distribution; marketing functions; assembling; transportation; storage; trade channels; developing of marketing methods; direct marketing; sale of goods by middlemen; auctions; produce exchanges; speculation; unit stores; department stores; mail-order houses; chain stores; co-operative marketing; fair competition; price policies; trade information; market analysis; merchandising costs and prices; an analysis of the merits and defects of the existing distributive organization.

83. Advertising. Three hours. One semester.

A study of advertising as a business force. The course covers the development and fundamental principles of advertising and an examination of the methods of representative advertisers; problems and the scope of advertising; functions of advertising; the appeals; the presentation of the appeals; mediums; the advertising agency and its work.

93. Public Finance and Administration. Three hours. One semester.

Economic functions of the state; principle and incidence of taxation; national and local finance; public debts and their redemption; revenue systems of modern states; central and local administration.

103. Statistics. Three hours. One semester.

General introduction to the use of statistics; methods of collection; tabulation and graphic presentation; analysis and interpretation; application to the study of business cycles, population and other problems; a survey of some of the principal sources of statistical information.

116. Law. Three hours. Throughout the year.

An orientation course in the general field of law and procedure, touching the following subjects, viz: Business Associations, Real Property, Liens, Leases, Mortgages, Wills, Workmen's Compensation, Insurance.

123. Business Administration. Three hours. One semester.

A study of the fundamentals of business organization and administration; the field of business administration; plant location; the administration of personnel; market problems; finance; production; risk-bearing; wage systems; welfare activities. Books recommended: Marshall, *Business Administration*; Jones, *Administration of Industrial Enterprises*.

143. Corporation Finance. Three hours. One semester.

Economic services of corporations; capitalization; detailed study of stock and bonds; financing of extensions and improvements; management of incomes and reserves; dividend policy; insolvency; receiverships; reorganizations. Books recommended: Gerstenberg, *Financial Organization and Management*; Bonneville, *Elements of Business Finance*; Mead, *Corporation Finance*; Gerstenberg, *Materials of Corporation Finance*; Dewing, *Corporate Promotions and Reorganizations*.

153. Investments. Three hours. One semester.

A presentation of the underlying economic theory as it is worked out in actual practice of investment institutions today. The course deals with the development and place of investment in the field of business and its relation to other economic, legal and social institutions. The fundamental principles are presented along with a description of investment machinery. An analysis is made of the various classes of investments. Books recommended: Sakolski, *Principles of Investment*; Lyon, *Investment*; Jordan, *Investments*; Badger, *Investment Principles and Practices*.

CHEMISTRY

PROFESSOR BENDER AND ASSISTANTS

Major: Courses 18, 28, 38.**Minor:** Courses 18 and either 28 or 48.

18. General Inorganic Chemistry. Four hours. Throughout the year. Three hours of class work and three hours of laboratory work per week.

A systematic study of the fundamental principles of Chemistry. The rapid increase in knowledge of the material world we live in and particularly the new knowledge of the constitution and structure of matter demands a popular and cultural approach to Chemistry. While this procedure is attempted in this course the needs of those who may pursue the subject further are not overlooked.

Laboratory hours:—Section A: Wednesdays, 1-4; Section B: Thursdays, 1-4; Section C: Fridays, 1-4.

28. Qualitative Analysis. Four hours. Throughout the year. Two lectures or recitations and six hours of laboratory work per week. The theories and principles of analytical chemistry are studied.

The course includes a study of the systematic methods of separating and detecting all of the ordinary metals and acid radicals. The laboratory work includes the analysis of about thirty solutions and solids varying in complexity from simple salts to complex insoluble artificial mixtures.

Text.—Stieglitz's *Qualitative Analysis*, Vol. 1.

Laboratory Manual:—Stieglitz's *Qualitative Analysis*, Vol. 2.

Laboratory Hours:—Mondays and Tuesdays, 1-4.

38. Quantitative Analysis. Four hours. Throughout the year. One lecture or recitation and eight hours of laboratory work per week. A study of the methods and principles of quantitative analysis including chemical calculations.

The laboratory work includes simple introductory determinations, acidimetry, alkalimetry, partial analysis of copper, iron, lead, zinc and manganese ores, analysis of coal, alloys, limestone, cement, silicate rock, and steel, electrolytic analysis, gas analysis, calorimetry, and a few organic analyses including fertilizers, milk, butter and oils.

Text:—Mahin's *Quantitative Analysis*, with frequent reference to other works.

Laboratory Hours:—Mondays and Tuesdays, 1-5.

48. Organic Chemistry. Four hours. Throughout the year. Two hours lectures and recitations and six hours of laboratory work per week.

The course includes a study of the sources, classification and type reactions of organic materials, of food-stuffs and their relation to nutrition, dyes, pharmaceuticals, explosives, coal tar intermediates, manufacturing processes and recent developments in this field of Chemistry. The course includes a carefully selected series of demonstrations, the display of a large number of representative materials, and the use of about one hundred charts and slides especially prepared for this course.

The laboratory work consists of about sixty experiments covering the preparation and study of a wide range of representative compounds. Prerequisite, Chemistry 18.

Text:—Norris' *The Principles of Organic Chemistry*.

Laboratory Manual: Fisher's *Laboratory Manual of Organic Chemistry*.

Laboratory Hours:—Wednesdays and Thursdays, 1-4.

54. Physical Chemistry. Two hours. Throughout the year. Prerequisites, Chemistry 38 and 48, and a working knowledge of the Calculus.

Text:—Getman's *Outlines of Theoretical Chemistry*.

EDUCATION AND PSYCHOLOGY

PROFESSORS REYNOLDS, BUTTERWICK, GRIMM AND ASSISTANTS

While the primary aim of this department is to provide training for those who desire to enter the teaching profession, yet it is believed that the courses offered will be useful also in connection with the training of children and in the social relationships of the educated man and woman. Education is one of the most important concerns of society. A serious study of the problems of education will enable the college men and women to give society intelligent leadership in many of its most important undertakings.

The courses of the department have been planned with special reference to the requirements of the State of Pennsylvania. Students who, for any reason, wish to teach in other states, should early consult with the head of the department in the selection of courses to meet the requirements of such states.

The Pennsylvania State Council of Education has approved the following regulations for the College Provisional Certificate:

This certificate entitles the holder to teach for three years in any public high school of the Commonwealth the subjects indicated on

its face, and to teach in the elementary field where the applicant is a holder of a certificate for teaching in this field or has completed an approved curriculum in a school of education in preparation for teaching in such field.

Such a curriculum will be approved when the six semester hours of prescribed electives are in the field of elementary education and the six semester hours of practice teaching are with pupils of elementary school age.

The applicant for this certificate must be a graduate of an approved college or university and must have successfully completed at least eighteen semester hours of work of college grade in education distributed as follows:

Introduction to Teaching.....3 semester hours

Educational Psychology (General
Psychology is a prerequisite).....3 semester hours

Practice Teaching in the Appropriate
Field6 semester hours

Electives in Education selected from
the following list6 semester hours

Secondary Education	Educational Sociology
Elementary Education	Educational Systems
School Efficiency	History of Education
Special Methods	Principles of Education
School Hygiene	Educational Psychology
Educational Administration	Technique of Teaching
Educational Measurements	

The practice teaching requirement may be met by one hour a day of observation and practice teaching with one hour a week of conference in connection therewith for one half year.

Three years of successful teaching experience in the field in which certification is sought, together with a teaching rating of "middle" or better, may be accepted as the equivalent of the practice teaching requirement.

Until September 1, 1931, the holder of this certificate will be certificated to teach subjects in which not fewer than twelve semester hours have been completed and after September 1, 1931, to teach

subjects in which not less than eighteen semester hours have been completed.

In order to meet these requirements, students of the college who are candidates for the A.B. or B.S. degree are advised to do their major and minor work in subjects which are ordinarily taught in the public high schools.

They should, furthermore, register for Education 124, 13, 23, Psychology 13, Psychology 23, Education 136, and 82, preferably in the order named. Wherever possible this work should be started in the Freshman year.

By action of the Department of Public Instruction, in October, 1923: "The six semester hours of practice teaching may be met by three semester hours of actual classroom experience in observation, participation and practice teaching under approved supervision and three semester hours of methodology or administration related to this experience."

To those who are preparing for work in Education as a profession, and who desire to make a more complete preparation than the minimum required by the State, a major in Education leading to the degree of B. S. in Education is offered. For this, courses in Education or Educational Psychology totaling twenty-four semester hours are required, and in addition two minors, chosen from related fields, of eighteen semester hours each.

The residence requirements for this degree may be met either by spending a full year in actual residence or by earning 30 semester hours in residence either during the Summer School or during the regular academic year. The student should consult page 34 for the regular requirements for the degree.

PLACEMENT BUREAU

In order to give students the benefit of calls that are received for teachers and to render greater assistance in finding employment, the College provides for a Placement Bureau to keep on file records of students with their credentials for those who desire it. For registration with the bureau a fee of one dollar is charged.

The Placement Bureau of the College cooperates with the Placement Service, Teacher Bureau, of the Department of Public Instruction, Harrisburg, Pennsylvania, thus offering additional facilities for the placement of graduates of this institution.

EDUCATION

124. Introduction to Teaching. Two hours throughout the year.

An introductory course for prospective teachers, intended also to enable students to decide whether they have an interest in professional education, and to introduce the citizen to the problems of one of the most important institutions in a democracy. It does not necessarily presuppose an intention on the part of the student to enter the teaching profession. A survey of the field based on observation, assigned readings, and class discussions.

13. History of Education. Three hours. First semester.

An analysis of the history of education from the time of early Greek education to the present day. Special attention will be given to the aims, content, organization and results of the educational systems of various countries, as well as to the great leaders of educational thought.

23. History of Education in the United States. Three hours. Second semester.

A study of education in colonial times; early attempts at organizing systems of education; the history of the elementary school; the Latin grammar school; the academy movement; the history and growth of the high schools, colleges and universities; the present public school.

33. Principles of Secondary Education. Three hours. Second semester.

A course dealing with the high school pupils, their physical and mental traits, individual differences, and the make-up of the high school population; the secondary school as an institution, its history, its relation to elementary education, and to higher education; social principles determining secondary education; the curriculum; the place, function, and the value of the several subjects of the curriculum; organization and management of the high school.

LATIN LANGUAGE AND LITERATURE

PROFESSOR OHL

The courses in Latin are designed not merely to provide training for those planning to teach Latin, but to offer to those interested intensive work in certain of the more important authors. The text will be studied in each case primarily as literature, with emphasis laid upon the attainment of a sympathetic understanding of Roman life and thought, and the influence of ancient Western civilization upon modern times. The study of Latin is valuable not only for cultural reasons, but as providing a foundation for professional training in many fields of public life, such as law, theology and journalism.

Major: Courses 16, 26, 36, 46.

Minor: Courses 16, 26, 36 or 46.

16. Freshman Latin. Selections from Sallust's *Catiline*, Livy, Cicero's *Letters*, and Pliny's *Letters*. Especial stress will be laid upon a correct comprehension of grammatical structure and translation into strictly idiomatic English. Such review of forms and syntax will be given as seems necessary. Three hours throughout the year.

Note that Latin 16 is required of majors in French and Greek. These and all other candidates for the A.B. degree who elect Latin 16 must take this course in their Freshman year. Exception to this rule will be made only in unusual circumstances and after consultation with the professor in charge.

26. Lyric Poetry and Drama. Selections from the *Odes* of Horace and Catullus, followed by the reading of several plays of Plautus and of Terence. Three hours throughout the year. Prerequisite: Latin 16.

36 b. Vergil. This course is intended to supplement the knowledge of Vergil gained in preparatory schools. It consists of a review of the story of the *Aeneid*, followed by a rapid reading of selections from Books VII-XII of the *Aeneid*, and from the *Eclogues* and *Georgics*. Three hours, second semester. Prerequisite: Latin 16 and 26. Offered in alternate years. (Not offered in 1931-1932).

46 a. Mediaeval Latin. A rapid reading of selections from the Latin writers of the third to the fifteenth centuries A.D. The continuity of Latin literature from the patristic period to the Renaissance humanists will be emphasized. Three hours; first semester. Prerequisite: Latin 16 and 26. Offered in alternate years.

46 b. Special Reading in Classical Latin Literature. This course is open to Juniors and Seniors majoring in Latin who wish, either individually or in groups, to pursue special readings in certain fields, such as history, philosophy, oratory, law, or in certain literary forms, such as the elegy, the epigram, the satirical novel. Three hours; second semester. Prerequisite: Latin 16 and 26. Offered in alternate years.

56. Greek and Latin Literature in Translation. This course is intended for the student of English Literature or of Greek and Latin literature who desires a wider acquaintance with the classics than can be obtained through reading in the original. A knowledge of either Greek or Latin, though desirable, is not required. The course includes a survey of the history of Greek and Latin Literature with wide reading of selections from the more important authors in the field of epic, lyric, drama, history, philosophy and oratory. The contribution in thought, material and form of classical literature and civilization to modern life and letters will be emphasized. Open as an elective to Juniors and Seniors. Cannot be counted toward a major or minor in either Latin or English. Not accepted for certification by the State Department of Education. Three hours throughout the year. Offered in alternate years. (Not offered in 1931-1932).

MATHEMATICS

PROFESSORS WAGNER AND GRIMM

Major: Courses 16, 33, 46, 56, 74, 84.

Minor: Courses 16, 46, and any additional six semester hours.

A Major in Mathematics may lead to either the B.S. or A.B. degree. If the B.S. is desired, the candidate must take the General

Requirements for that degree (see p. 34), and must select as his Minor either Biology, Chemistry, or Physics.

If the A.B. is desired, the candidate must take the General Requirements for that degree (see p. 34), and may take his Minor in any department other than those named in the preceding paragraph.

13. Advanced Algebra. Three hours. First semester.

Covering ratio and proportion, variation, progressions, the binomial theorem, theorem of undetermined coefficients, logarithms, permutations and combinations, theory of equations, partial fractions, etc.

23. Plane Trigonometry. Three hours. Second semester.

Definitions of trigonometric functions, goniometry, right and oblique triangles, computation of distances and heights, development of trigonometric formulae.

16. General Mathematics. Three hours. Throughout the year.

An introductory course designed to give the student a knowledge of the fundamental principles of Analytic Geometry, and the elements of the Calculus. The first semester will be devoted to Analytic Geometry and some elements of Calculus. The second semester will be devoted to Analytic Geometry and the Calculus. Open to Freshmen who have had Trigonometry. Prerequisite to Mathematics 46.

113. Introduction to the Mathematics of Finance. Three hours. First Semester.

This course takes up the solution of the quadratic equation, logarithms, progressions, permutations and combinations, and the application of these to financial principles.

123. Mathematics of Finance. Three hours. Second semester.

The course seeks to present the mathematical principles and operations used in financial work. A detailed study of compound interest, compound discount and annuities is undertaken. Application of these principles is then made to practical problems of amortization, sinking funds, depreciation, valuations of bonds and building and loan associations.

46. Differential and Integral Calculus. Three hours. Throughout the year.

Differentiation of algebraic and transcendental functions, maxima and minima, development into series, etc. Integrations, rectification of curves, quadrature of surfaces, cubature of solids, etc.

56. Advanced Calculus. Three hours. Throughout the year.

A continuation of Mathematics 46, is required of all candidates majoring in Mathematics.

63. Plane Surveying. Three hours. Second semester.

A study of the instruments, field work, computing areas, plotting and drafting, leveling, etc.

74. Differential Equations. Two hours. Throughout the year.

A course in the elements of differential equations.

Prerequisite, Mathematics 46.

84. Analytic Mechanics. Two hours. Throughout the year.

Resolution of forces, two and three force pieces, center of gravity, acceleration, moment of inertia, friction.

PHILOSOPHY AND RELIGION

PROFESSOR BUTTERWICK

Major: Philosophy 02, 12, 26, 43, 53, 112, Bible 26.

Minor: Philosophy 02, 12, 26, 112, 43, 53.

The purpose of this course is to provide the student with a comprehensive view of the rise and development of the Hebrew religion as set forth in the Bible and contemporaneous literature. 1930-31.

PHYSICS

PROFESSOR GRIMM

Major; Physics 18, 24, 34, 44, Math. 84.

Minor: Physics 18 and any eight additional semester hours.

18. General Physics. Four hours. Throughout the year.

Three hours lectures and recitation and four hours laboratory work per week. The course will be a thorough investigation of the fundamental principles of physical science and is especially intended as a preparation for Physics 2, 3, and 4, and for those interested in the practical applications of physical laws and principles.

Laboratory hours: Thursday and Friday afternoons.

24. Advanced Physics—Mechanics. Four hours. One semester.

This course will be a thorough investigation of the mechanics of solids, liquids, and gases and sound.

First semester, 1931-1932.

34. Advanced Physics—Electricity and Magnetism. Four hours. One semester.

This course will be a thorough consideration of the laws of the electric and magnetic fields and the power applications of electricity.

Second semester, 1931-1932.

44. Advanced Physics—Heat and Light. Four hours. One semester.

This course will be concerned with the nature of heat and light and the transmission of each through various media including reflection, refraction, and dispersion.

First semester, 1932-1933.

The Calculus will be a very great aid in these courses.

POLITICAL AND SOCIAL SCIENCE

PROFESSORS GINGRICH AND STOKES

Major: Economics 16, Political Science 16, Sociology 16, Economics 26.

Minor: Economics 16, Political Science 16, Sociology 16.

The courses in this department are planned to be useful in preparing the student for service in political and social work after graduation. They are recommended especially to persons who intend to enter professional life.

ECONOMICS

16. Economic Theory. Three hours. Throughout the year.

PHYSICAL EDUCATION

E. E. MYLIN, DIRECTOR OF PHYSICAL EDUCATION FOR MEN; LOUISE G. FENCIL, DIRECTOR OF PHYSICAL EDUCATION FOR WOMEN;

DR. POLK; PROFESSOR MACKERT

The aim of the work in this department is to promote the general physical well being of the students, and to assist them to gain the hygienic, corrective and educative effect of rightly regulated exercise.

In order that this object may be better attained, and to assist the director in gaining a definite knowledge of the strength and weakness of the individual, a careful physical examination and medical inspection is required, which serves as a basis for the work.

All students must take the prescribed work in Physical Education. It is strongly recommended that before entering College each student undergo a thorough visual examination and be fitted with glasses, if there is a need for them.

The Health Laws of the State of Pennsylvania require successful vaccination against smallpox before one may enter private, parochial or public schools as a student.

All first year students are required to attend a course of lectures in Personal and Sex Hygiene, given twice a week for one year.

14. Hygiene. Two hours. Throughout the year. Required of all Freshmen.

The aim of the course is to bring to the attention of the student early in the college course some of the common pitfalls in the path of health and the methods of avoiding them, as well as to train him for leadership in community health improvement.

The course consists of experiments, observations and inferences regarding health procedures. This is supplemented by the necessary accompaniment of instruction concerning the structure and function of the human body.

Courses for Men

Two hours a week of regular prescribed work are required of all students, resident and special, in the first and second year classes, and are an integral part of the requirements for graduation.

Freshman Physical Education. Two hours a week.

Sophomore Physical Education. Two hours a week.

Courses for Women

Two hours of exercise each week are required of all resident and non-resident women throughout their college course. Exceptions to this requirement are made only for physical disability and at the discretion of the College physician in which case suitable work is prescribed.

1. Hockey

Two hours per week. Fall to Thanksgiving, Spring to June.

2. Archery

Two hours per week. Fall to Thanksgiving, Spring to June.

3. Educational Gymnastics

One hour per week. Thanksgiving to Spring.

4. Folk Dancing

One hour per week. Thanksgiving to Spring.

5. Clogging

One hour per week. Thanksgiving to Spring.

6. Special Corrective Gymnastics

One hour per week. Thanksgiving to Spring. Advised for students who need special attention because of poor carriage, slight curvations of the spine, etc. Daily work on the part of the students is in addition to a period once a week with the instructor.

7. Tennis

Two hours per week. Fall to Thanksgiving, Spring to June.

8. Track and Field Events

Two hours per week. Spring to June.

9. Volley Ball

One hour per week. Thanksgiving to Spring.

Students are required to provide themselves with gymnasium suits.

Application for information in regard to the regulation costume for athletics and gymnastics should be made to the Director of Physical Education for Women.

PRE-MEDICAL COURSES

The following courses of study are outlined for those desiring to qualify for admission to medical schools.

The work outlined for the two-year course includes the subjects specified by the Bureau of Professional Education of the Pennsylvania Department of Public Instruction as the minimum requirement for admission to any medical school.

The four-year course includes all of the subjects required for admission to the medical schools which require a collegiate degree for admission and fulfills the requirements of the college for the Bachelor of Science degree.

The student must maintain a standard of not less than "B" in all courses in order to obtain the recommendation of the college for admission to a medical school.

In addition to the courses outlined the student is advised to read the following:

Locy, *Biology and its Makers*.

Hollman-Walker, *Organic Chemistry*.

Current Biological Literature in Journals of Wistar Institute of Anatomy and Biology.

THE CONSERVATORY OF MUSIC

MISS GILLESPIE, MRS. BENDER, MESSRS. CAMPBELL, CRAWFORD, MALSH,
MEYER

THE aim of Lebanon Valley College Conservatory is to teach music historically and aesthetically as an element of liberal culture; to offer courses that will give a thorough and practical understanding of theory and composition; and to train artists and teachers.

GENERAL REQUIREMENTS

The requirements for admission to the courses in the Conservatory of Music leading to a diploma are practically equivalent to those of the College. An applicant for admission must (1) be a graduate of a four year High School, and (2) possess a reasonable amount of musical intelligence.

MUSIC EDUCATION COURSE For Training Teachers of Public School Music (B. S. in Music)

Entrance Requirements

The possession of an acceptable singing voice and of a fairly quick sense of tone and rhythm.

Ability to sing at sight hymn and folk tunes with a fair degree of accuracy and facility.

Ability to play the piano or some orchestral instrument representing two years study.

A general academic education, representing a four-year high school course or its equivalent.

The outline of the curriculum follows:

DESCRIPTION OF COURSES

(a) Theoretical

Elementary Harmony. Three hours throughout the year.

Study of intervals, triads, inversions, and chords of the seventh. Harmonization of simple melodies and basses. Original work, hymn tunes and keyboard harmony.

Prerequisite: a study of the rudiments of Music including notation, formation of scales, major and minor.

Advanced Harmony. Three hours throughout the year.

Secondary Seventh chords, dominant ninths, modulation, suspensions and ornamented tones.

Sight Singing and Ear Training. Five hours first semester. Three hours second semester.

Rhythmic notation, singing of intervals, chords and melodies. Melody writing. Transposition.

Advanced Sight Singing and Ear Training. Three hours throughout the year.

Singing of Seventh Chords in Modulation, Melody Writing and Transposition.

Elementary Dictation. Dictation of intervals and melodies. Transposition.

Harmonic Dictation. Dictation of intervals, melodies and chords in four part harmony, Transposition.

Counterpoint. Two hours throughout the year.

Elementary work in strict Counterpoint (five species in Two Part Counterpoint).

Form and Composition. Two hours throughout the year.

The construction of simple binary, and ternary forms, and the analysis of musical works of different periods. Free Composition: improvisation of simple ternary and contrapuntal forms, such as "The Pin Head Fugue."

History of Music. Three hours throughout the year.

Development of Music in its various forms from the beginning of the Christian Era to the present, with an introduction on ancient and primitive music. Text, lectures, and collateral reading. Lectures are illustrated by examples of the particular art forms or from the works of the particular composer under discussion.

Pedagogy.

The aim of this course is to give Juniors and Seniors practical teaching experience under the instruction and supervision of members of the Faculty. After a course of lectures and demonstration by the Supervisor, the student gains actual experience in teaching pupils both in class and private lessons.

Lectures will be given on all phases of piano playing. The instruction will be based on the most modern pedagogical and psychological principles. All presentation of material will be first made through the ear, the most spiritual sense, then the eye and touch.

(b) Practical

Private instruction is provided in Applied Music (Piano, Voice, Organ and Violin).

Piano: Mrs. Bender, Mr. Campbell.

Voice: Mr. Crawford.

Organ: Mr. Campbell.

Violin: Mr. Malsh.

Cello: Mr. Meyer.

A bulletin describing courses in Practical Music will be sent upon application.

MUSIC AND THE A.B. DEGREE

Music study may be credited toward the A.B. Degree to a total of twenty semester hours (five semester hours per year).

THE STUDENTS' RECITALS

The students' Tuesday evening recital is of inestimable value to all students in acquainting them with a wide range of the best musical literature, in developing musical taste and discrimination, in affording young musicians experience in appearing before an audience, and in gaining self-reliance, as well as nerve control and stage demeanor. These recitals also enable all students and others who are interested in music to gain a much wider acquaintance with musical literature than would otherwise be possible. Students in all grades appear on the programs of these recitals. Each senior is required to present one special graduation recital.

FEES

Matriculation for Music ranges from one dollar to twenty-five dollars. No additional fee is required for music from students who have already matriculated for College departments.

Semester bills are payable strictly in advance of recitations. Students are registered at the office of the College Registrar over the signature of the Director of the Conservatory.

The Rates for the Public School Music Supervisors' Course will be \$220 per year. This will include all theoretical classes, two private lessons weekly, and two hours daily practice.

Private Lessons

Rates are determined by the classification of the pupil and the fees charged by the different professors.

The rates per semester, two hours per week, range from \$34.00 to \$50.00, and for one lesson per week from \$17.00 to \$25.00.

Class Lessons

The rate for all Theoretical courses given as class work is \$18.00 per semester for each course.

Rent of Practice Instruments

Piano, one hour daily per semester.....	\$4.00
Each additional hour daily per semester.....	2.00
Organ, one hour daily, per semester.....	20.00
Organ, two hours weekly, per semester.....	10.00

RULES AND REGULATIONS

Students are not enrolled for a shorter period of time than a full semester, or the unexpired portion of a semester; and no reduction is made for delay in registering when the time lost is less than one-fourth of the semester.

No reduction is made for absence from recitations except in case of protracted illness extending beyond a period of two weeks, in which case the loss is shared equally by the college and the student.

Conservatory students are under the regular college discipline.

The Men's Glee Club and the Eurydice Choral Society are organized under the direction of the Department of Music.

SUMMER SESSION

1931

SIX WEEKS TERM

Opens June 22

Closes July 31

The work of the Summer Session is conducted in two separate schools. One division is conducted on the campus of the college where work in all departments is offered. For the convenience of students in the vicinity of Harrisburg, a separate division, with limited offerings, is conducted in Edison Junior High School Building, located at 19th and Chestnut Streets, in the city of Harrisburg. The opening and closing dates and the tuition rates and credits offered for the work are the same for both divisions. No accommodations are available for residence in Harrisburg, while in Annville the complete college plant is at the disposal of summer students.

BLANK FORMS FOR WILL BEQUESTS

I give and bequeath to the "Trustees of Lebanon Valley College, in the County of Lebanon, in the Township of Annville," incorporated under the laws of the State of Pennsylvania, the sum of.....
.....dollars; and the receipt of the Treasurer thereof shall be sufficient discharge to my executors for the same.

In devises of real estate observe the following:

I give and devise to "The Trustees of Lebanon Valley College, in the County of Lebanon, in the Township of Annville," incorporated under the laws of the State of Pennsylvania, the following land and premises, that is to say.....to have and to hold the same, with the appurtenances, to the said Board, its successors and assigns, forever.

Persons making bequests and devises to the Board of Trustees, or knowing that they have been made, are requested to notify the President of the College, George Daniel Gossard, Annville, Pa., and, if practicable, to enclose a copy of the clause in the will, that the wishes of the testators may be fully known and recorded.

Persons making bequests who may desire to have the bequests devoted to some particular purpose, such as general endowment, or the endowment of a chair, or for a building, or for the endowment of a scholarship, are requested to make specific mention of the same in the will provision.
